

# OFFERS PROVEN USABILITY TESTING RESULTS

- Medical product focus
- Results meet regulatory documentation requirements
- Have not received rejections of our HF validation studies by regulatory authorities

**Foresight conducts User Testing that assesses:**

- Medical product physical features
- Device procedures
- User psychological reactions

## SATISFIED CLIENTS

**Baxter**

**SKYTRON**

**intelomed**

**icumedical**

### **Proficient at:**

#### **Medical Product Formative Testing**

Exploratory studies guide development and prepare for validation: early market explorations and pre-Summative "dress rehearsals"

#### **Medical Product Summative Testing**

Comprehensive validation testing providing evidence for submission to regulatory bodies, including the FDA.

"We had no idea how to handle the User Testing on our own. Foresight's turn-key approach was comprehensive and flew through the regulatory authorities." Skytron

## Foresight Unique Capabilities:

- **Understands keys to product commercial success**
  - How clinicians interact with medical technology
  - Whether your product meets customer needs
  - Workflow impact
- **Work on a wide variety of medical products**
  - Intravenous consumables and accessories
  - Surgical products
  - Hospital software
  - Home treatment products like On-body injectors and insulin pumps
  - Hospital disinfection equipment
- **Experience testing diverse populations:**
  - Physicians
  - Nurses
  - Technicians
  - Patients

## How we work

We support your project with a specialized action plan and a proven process:

- Establish study objectives
- Develop research protocol
- Design data collection instruments
- Conduct and document User Testing
- Prepare written report
- Screen, select and remunerate participants, if required
